Florists and Seedsmen

WENATCHEE : WASHINGTON

Greenhouses and Nurseries: 607 to 619 Okanogan Avenue
Seed and Cut Flower Store: 22 North Wenatchee Avenue

"Say It With Flowers"

HOW TO ORDER

ORDER EARLY. Remittance must accompany order on accounts less than \$5.00.

All orders will be sent by parcel post if not too heavy or otherwise instructed. Heavy orders go by express. Large funeral pieces should go by express.

Be sure to give shipping instructions and write your name and address plainly on your order.

We will fill all orders at once, unless instructed to hold same.

Everyone cordially invited to visit our greenhouses on Okanogan Ave, fifteen minutes' walk from post office, five minutes from Deaconess Hospital, fifteen minutes from St. Anthony's Hospital. It's worth the time. We have 45,000 sq. ft. under glass, devoted to cut flowers and plants. We deliver.

TERMS AND CONDITIONS OF SALE

PRICES—Quoted F. O. B., Wenatchee, Washington.

TERMS—Cash or satisfactory reference before shipment. Accounts due 30 days from date of invoice.

C. O. D. ORDERS should be accompanied by remittance of least one-third of the amount of order.

RESPONSIBILITY—All shipments are at the risk of the purchaser after being delivered in good condition. We will not be responsible for any delay or damage that may occur through the negligence of transportation companies, or horticultural inspectors.

COMPLAINTS—All errors or claims for shortage must be made within two days after receipt of stock, or they will not be rectified.

SUBSTITUTION—In a mixed order we expect purchasers to state if any substitutions should be made or not in regard to grade or variety.

GUARANTEE—While we exercise the greatest of care to have all our stock run true to name, however it is mutually understood and agreed to between the purchaser and ourselves, that should any stock prove untrue, we shall in no case be liable for any sum greater than that originally received for such stock that may prove untrue, besides, we will not be responsible for the crop. All orders are booked only under the above conditions.

HOME BEAUTIFUL PLANTS

For \$2.50 we will send you a collection of 24 plants that will make your home beautiful.

CHEERFUL GARDEN COLLECTION OF DAHLIAS

8 Choice Dahlias, \$2.00; 12 Choice Gladiolus, 50c.

Proper fertilizers, when correctly applied, reduce the number of culls and bring earlier maturity. Let us assist you with fertilizer problems.

Our practical experience in the market garden business, together with our constant contact with growers, enables us to fill your requirements satisfactorily. Home gardeners also receive the same high quality seeds and plants.

Wenatchee Home with Evergreen Planting.

GARDEN AND FLOWER SEEDS

Insecticides, Sprayers, Hose, Etc.

EVERYTHING FOR THE GARDEN

WE do not pay transportation charges, except where goods are marked postpaid.

We do not warrant in any way, express or implied, the contents or the description, quality, productiveness or any other matter, of any seeds sold by us, and we will not in any way be responsible for the crop. If the purchaser does not accept these goods on above terms no sale is made thereof, and he must return them at once and money will be refunded subject to the above conditions.

White Jerusalem Artichokes

Planted and cultivated for the tuber, the same as potatoes. They need not be dug. If hogs are turned in on them they can easily root the tubers out. One acre will keep from 20 to 30 hogs in fine condition for several months. Excellent for fattening if fed with a grain or mash ration. Plant 400 lbs. per acre early in the spring.

Parcel Post, freight or express, 10 lbs. 50c; 50 lbs. \$1.50; 100 lbs. \$2.50. Per lb., prepaid, 20c.

Asparagus

CULTURE—One. oz. of seed will produce 300 plants, 1¼ lbs. of seed enough plants to set acre.

Sow early in the spring. Have the rows about 2 feet apart and an inch apart in the row, cover the seed with half an inch of soil. Thin to not less than 2 inches apart. Lay out your bed 4 ft. between the rows, and 18 in. in the row, plant the roots about 4 inches deep. When your asparagus appears about an inch above the ground start to cultivate. Throw the soil on top of your bed so as to completely cover the growth and keep covering at subsequent cultivations till you have laid your ground into mounds about 16 inches high. Do not cut the first season; cut very lightly the second.

Soak seeds in hot water before sowing.

Delivery Free. Pkt. Oz. ¼ lb.

*Calendula	Ice Plant	Salpiglossis
*Calliopsis	Kochia	*Salvia
*Candytuft	*Larkspur	Scabiosa
Canna	Lavatera	Schizanthus
Carnation	Linum	*Silene
*Celosia	Lobelia	Stevia
Centaurea	Lupinus	*Stocks
*Chrysanthemum	Marigold	Sunflower
(Annual)	Marvel of Peru	Sweet Peas
*Cineraria	Matricaria	*Verbena
Clarkia	Mathiola	Vinca Rosea
*Convolvulus	Mignonette	*Viola Cornuta
Cosmos	Mimulus	Wallflower
Dahlia	Mirabilis	(Annual)
Datura	Myosotis	*Zinnia

FLOWERING PERENNIALS

For Permanent Beds and Borders, Many Flowering the First Season

Agatheia	Dianthus	Petunia
Anchusa	Digitalis	Phlox
Anemone	(Foxglove)	Poppy
Antirrhinum	For-Get-Me-Not	Primula
Aconitum	Freesia	Pyrenthrum
Aquilegia	Gaillardia	Ricinus
Begonia	Geranium	Romneya
Bellis	Gerbera	Salvia
Canterbury Bells	Geum	Scabiosa
Campanula	Gypsophila	Shasta Daisy
Canna	Heliotrope	Statice
Carnation	Hollyhock	Stevia
Centaurea	Hunnemannia	Stocks
Candidissima	Lantana	Snapdragon
Chrysanthemum	Lobelia	Sweet William
Coreopsis	Lupinus	Valeriana
Cyclamen	Mimulus	Verbena
Daisy	Myosotis	Vinca
Dahlia	Pansy	Viola
Delphinium	Pentstemon	Wallflower

FOR SHADY PLACES

Anemone	Clarkia	Myosotis
Antirrhinum	Cineraria	Oenothera
Aquilegia	Cyclamen	Pansy
Begonia	Delphinium	Primula
(Tuberous)	Scarlet Flax	Viola
Bellis	Foxglove	Violets
Daisy	Godetia	Ferns
	Mimulus	

EVERLASTING FLOWERS

Ammobium	Gysophila	Rhodanthe
Acroclinium	Paniculata	Statice
Gomphrena	Helichrysum	Xeranthemum
(Globe Amaranth)	Ornam't'l Grasses	

FOR CUT FLOWERS

Acroclinium	Coreopsis	Mignonette
Antirrhinum	Cosmos	Pentstemon
Aquilegia	Dahlia	Poppies
Asters	Daisies	Pyrethrum
Candytuft	Delphinium	Salpiglossis
Carnation	Dianthus	Salvia
Arctotis	Gaillardia	Scabiosa
Bartonia	Gerbera	Schizanthus
Brachycome	Gypsophila	Statice
Calendula	Hunnemannia	Stevia
Calliopsis	Larkspur	Stocks
Celosia	Lupinus	Sunflower
Centaurea	Marigold	Sweet Peas
Chrysanthemum	Matricaria	Zinnias

ORNAMENTAL AND FOLIAGE PLANTS

Amaranthus	Candissima	Pyrethrum
Canna	Coleus	Ricinus
Centaurea	Kochia	

FRAGRANT FLOWERS

Abronia	Dianthus	Scabiosa
Alyssum	Heliotrope	Stocks
Centaurea	Mathiola	Sweet Peas
Carnation	Mignonette	Sweet William
Clematis	Mimulus	Violet
Paniculata	Nicotiana Affinis	Wallflower
	Pansy	

FOR HANGING BASKETS, WINDOW BOXES

Hot-Kap Paper Plant Covers

Because of the convenience of setting the Hot-Kap Cover it has become very popular. So constructed that the wind cannot blow them away, because the machine places dirt around the edges. They are already folded ready for use. One man can do the work of four. After setting the field looks uniform, like a well kept garden. Furnished in two sizes, 9½ inch diameter at base for such plants as cucumbers, squash, etc. Also 11 inch in diameter at base for tomatoes, egg plant, etc. Write for prices.

Peanuts

CULTURE—Peanuts require light sandy soil well limed. Plant in the spring as soon as the ground has become warm, in rows 30 to 36 inches apart, placing the seed 6 to 10 inches apart in the row. It is not necessary to remove the hull when planting. Keep well hoed. When matured pull and hang up to dry.

VALENCIA—A very desirable and productive Spanish bush type. Mild, sweet flavored. Per pound 35c, postpaid.

KEEP YOUR LAWN MOWER SHARP

You can do it yourself easily and quickly with a Berghman Lawn Mower Sharpener. It is adjustable and lasts forever. A few strokes on each blade and your mower cuts like new. To keep your lawn mower in shape this summer SEND for this handy sharpener TODAY—

Mulford Cultures for Legumes

Mulford Cultures are easily applied to the seed before planting and contain pure tested strains of active vigorous nitrogen fixing bacteria, for inoculating seeds of legumes or soil. Enormous numbers of these very valuable bacteria are thus available to you in every package of Mulford Culture and may readily be applied to your seed. The sealed bottle insures purity.

PRICES—Alfalfa, Red Clover, White Clover, Alsike, Vetch, Peas, Beans, ½ bu., 60c; 1 bu., \$1.00; 2½ bu., \$2.25.

Special small size for Sweet Peas, Garden Peas and Beans, 35c.

Always specify on your order what crop you want to inoculate, as there is a different strain of bacteria for each legume.

Cel-O-Glass

Cel-O-Glass is sold in rolls 3 feet wide and in any length up to 100 lineal feet. Use it for garage and barn doors and windows, cellar windows, storm doors and most any place where you are now using glass.

Price, per roll, 100x3 ft., per square foot.....15c

A TESTIMONIAL

To Milot Mills Co., Wenatchee, Wash.

Gentlemen: I wish to extend a word of praise for CEL-O-GLASS. I have used Cel-O-Glass all of last winter and this winter with perfect satisfaction. At the beginning of cold weather I fitted the Cel-O-Glass into the frames on south side of poultry house, keeping out all draft and rain, making place quite comfortable, so much that the straw on the floor has kept perfectly dry, which means less worry on my part and more comfort for the chickens. Yours truly,
Wenatchee, Wn., Jan. 18, '27. W. O. FOWLER.

Style F—Length over all 42 inches.....	75c

Light and strong. Allow for postage.

Stanley's Bird Repellant

is one sure cure for troublesome birds. Not only birds, but moles, squirrels and all pests will leave your corn fields severely alone if you coat your seed corn with it just before planting. You don't have to wait for it to dry, and it positively will not clog the planter. It is not poisonous and, therefore, will not kill birds or animals, but it WILL keep your cornfields free from damage that runs into money and time, if you have to keep replanting all the time. Large can, enough for 2 bu. of seed corn (8 to 10 acres), \$1.50; half-size can, \$1.

Raffia

In ordering Raffia by mail, be sure to add the postage.

Raffia—Natural color. Price, $\frac{1}{4}$ lb. 20c; postpaid 25c; not postpaid, per lb. 40c.

ODORLESS—CLEAN—EFFICIENT

For Lawns, Gardens, Shrubs, House Plants, Fields and Orchards

Book FREE. Tells just how. Sold only in 25-lb. cotton bags, \$2.75; 2 lb. pkgs., 45c; 1 lb., 25c.

A 25-lb. bag covers a lawn space of 1,200 square feet. Lasts a year or more. A tablespoonful to a hill of potatoes, tomatoes or ordinary rose bush means abundant flowers, crisp, early vegetables.

A tablespoonful for 6 to 8-inch potted plants. Positively kills cut worms.

Sheep Manure

The Best Fertilizer for the Lawn and Garden

As a spring or fall top dressing for lawns, it is the best that can be procured. The first shower or watering carries the soluble particles down to the roots, and rapidly produces a most luxuriant growth. For general use apply 50 lbs. to every 100 square feet; 600 to 800 lbs. per acre for lawns. For general field and garden use, 1 ton per acre Pulverized perfectly fine. Can be distributed as easily as sand.

Prices F. O. B. Wenatchee, by express or freight.

STIM-U-PLANT

STIM-U-PLANT TABLETS are an ideal food for potted plants; they are clean; they take up small space, and one-quarter of a tablet is enough to use at a time on small plants.

EASY TO USE

Simply insert in soil near plants, or dissolve in water at the rate of four tablets to the gallon and apply as liquid manure. 30 tablets, 25c; 100 tablets, 75c; 1,000 tablets, postpaid, \$3.50.

Use it with any seeds that can be sown broadcast. Price, \$2.25; postpaid, \$2.35.

FISH OIL SOAP

For Aphids and all insects which suck. This soap dissolved 3 oz. in 1 gallon of warm water is very effective. About 3-4 lb. package, ea. 25c; postpaid, 30c.

Insecticides and Plant Remedies

BORDEAUX MIXTURE

Used principally for Mildew, Blight and Fungus Diseases of all kinds. Half lb. 25c; postpaid, 30c; 1 lb., 40c; postpaid, 45c; 5 lbs., \$1.50.

MAGGOTBATE

For use on all root crops for root maggots. 2 lb. cartons.....25c

POISON GAS BALLS

Exterminates Ground Squirrels, Pocket Gophers, Prairie Dogs

NON-EXPLOSIVE

No Danger of Killing Stock or Game Birds
Light the ball and drop it in the hole. The burning ball creates a gas heavier than air. It gets the whole family. Each 2½c; 100, \$2.00; 500, \$8.00. Weight, 75 lbs, per 1000.

GRAPE DUST (Hammonds)

Rust or mildew on parsley, muskmelons or other plants. "Grape Dust" is a practical and usually effectual remedy. 5 lb. pkg., \$1.00; postpaid, \$1.15.

A wonderfully effective spray for destroying grubs, maggots and worms which infect TURNIPS, RADISHES, BEETS, CAULIFLOWERS, CABBAGE, ONIONS, etc., and highly recommended for use in combatting CROWN BORERS in strawberries. The root maggot, as well as the strawberry crown borer, is hatched from an egg deposited on the plants by the maggot fly. This fly dislikes the odor of the spray, and will not deposit the eggs where the odor is present. Carco is highly recommended by market gardeners and large growers of vegetables. Is sure death to ants. Half pint, 50c; pint, 75c; quart, \$1.25; gal. \$2.75.

DUSTING SULPHUR

Prevents Mildew, and is a summer dust spray for insects and fungus diseases. Pound 15c; postpaid, 25c.

ARSENATE OF LEAD

Arsenate of Lead—Half lb. pkg., 20c; one lb. 30c.

TOBACCO DUST

For dusting plants affected with Aphis; also used on squash vines and melons. 1 lb., 15c; postpaid, 20c; 5 lbs., 75c; postpaid, 90c.

BLACK LEAF "40"

A Concentrated Solution of Nicotine Solution
For the convenient information of those desiring to use "Black Leaf 40" the following suggestions are made:

Against sucking insects, such as Green and Woolly Aphis, Pear Psylla, Grape Leaf Hopper, Pear Thrips, etc., 1 part "Black Leaf 40" to about 900 to 1000 parts water.

Against more resistant plant lice, such as Black Aphis and Rosy Apple Aphis, 1 part "Black Leaf 40" to about 500 to 700 parts water.

Price, 1 oz. bottle, 35c; half lb. tin, \$1.25; 2 lb. tin, \$3.50; 10 lb. tin, \$13.50. Not mailable.

SLUG SHOT (Hammond's)

A light, non-poisonous composite, fine powder for killing Potato Bugs, Currant and Cabbage Worms, Green and Black Fly. Beetles and Caterpillars. Full directions on each package. 1 lb. perforated box, 25c; postpaid, 30c; 5 lbs., 75c; postpaid, 90c.

Ant Killer, per can.....50c

A white Paint and Disinfectant Combined, in Powder Form, That is Ready to Use as Soon as Mixed With Water, and is Applied With Brush or Spray Pump

Used in stables, cellars, dairies, garages, factories, hog pens, creameries, warehouses, out-buildings, dog kennels, rabbit hutches, poultry houses. (Allow for postage)

FORMULA FOR CUTWORM AND GRASS-HOPPER POISON FOR FIVE ACRES

Paris green (or white arsenic).....	1 lb.
Molasses (cheap blackstrap preferably).....	2 qts
Lemons (or oranges).....	½ doz.
Water	4 gals.
Bran (or alfalfa meal).....	25 lbs.

Grind lemons with meat grinder, mix all ingredients thoroughly. Spread thinly to avoid danger to livestock.

Best spread in late afternoon. Reduce to suit size of garden.

Semesan Semesan Jr. Semesan Bel

THE PREMIER SEED DISINFECTANTS
Control Diseases, Increase Yields, Improve Quality.

SEMESAN—This disinfectant can be applied in either the liquid or convenient dust form to prevent or control effectively a most diversified variety of parasitic diseases and fungoid growths borne by seeds, seed pieces, plants, grafts and soils. Semesan is harmless to seed and plant life but extremely poisonous to disease and fungous organisms. It hastens germination, produces sturdier plants, promotes earlier maturity and increases both the quantity and quality of crop yields.

SEMESAN JR.—A less expensive but equally effective form of Semesan for the dry dust disinfection of both field and sweet corn seeds against the ear, root and stalk rots.

SEMESAN BEL—Applied to whole or cut seed potatoes, either as a dry powder or a whitewash-like water mixture. Semesan Bel will prevent or control the common seed-borne potato diseases.

Greenhouses and Nurseries, 607 to 619 Okanogan Avenue

How to Make a Lawn

If possible, the soil should be prepared a considerable time before the seed is to be sown, the longer the time the better. The best lawn would be obtained by preparing the soil a year before sowing the seed, and working it frequently to destroy the weeds and make the seed bed in perfect condition. Unless this is done you should bear in mind that though no seed of any kind is sown a multitude of weeds and coarse grasses will spring up from the seeds which are in all soils. Sowing grass seed will not prevent these seeds from germinating, so if you have purchased high grade seed, do not condemn your seedsman for weeds that appear in the lawn if the above precautions have not been followed.

Just before sowing the seed a lawn fertilizer should be broadcast and thoroughly worked in, at the rate of about 500 lbs. per acre. The seed should not be sown until the soil is in perfect condition, not only perfectly smooth but finely pulverized on the surface, and in the same condition to the depth of 8 inches or more. If the seed is to be sown during a dry season, the ground should first be thoroughly soaked with water, and then when it is not sticky when pressed in the hand, it should be carefully raked.

Seed should be sown when there is no wind blowing and can be sown evenly by sowing very lightly in one direction and then in another until the proper amount of seed is sown. Use plenty of seed, at least one pound of mixed lawn grass seed to each 300 sq. ft. of lawn, and it would be better to sow twice that amount. Do not economize in seed either in quantity or quality; it is the least expensive part of the lawn. After the seed is sown the careful use of the roller will press all seed into the soil. If the seed is raked in at all, it must be raked very lightly.

Commence mowing as soon as the grass is two inches high, but never cut very short during the first two years' growth. Leave the clippings where they fall. Many lawns are ruined by removing the clippings as it makes a splendid fertilizer and helps to form a thick turf.

The Home Garden Shovel---

is especially designed for home use and is adapted by light weight, correct shape and reduced size to relieve the fatigue of digging.

It has all the utility of a big shovel or spade compressed into a small implement that can be efficiently used by anyone not accustomed to heavy tools.

The Home Garden Shovel is so light in weight that a woman will be delighted to use it, and yet it is so sturdy that it will spade the toughest sod. Made of the very best of materials, it will serve for a life time as a general garden shovel.

High carbon steel blade, highly polished. Straight grain XX grade handle, sanded and waxed. Size of blade $8\frac{1}{4} \times 7\frac{1}{2}$ inches. Length of handle 33 inches. Weight is only 2 pounds. The step is an easy place for the foot, to relieve the pressure when digging.

Price \$1.35. Add postage.

LAWN GRASS MIXTURE

One Pound to 300 Square Feet.

Composed of Blue Grass and White Dutch
Clover Only. Per lb. 60c

Shady Place Lawn Mixture	65c
White Dutch Clover	60c
Kentucky Blue Grass	60c
Creeping Bent	\$1.50

The Court House Park Lawn was made from our Lawn Grass Mixture.

The Milot-Mills Company wish to thank their customers for their patronage and good will which has helped them to build such an institution which they believe is a credit to the whole of North Central Washington. With their 17 years of experience they feel they are in a position to render inestimable service to both the farmer and gardener, and sincerely hope all will feel free to write them on any subject pertaining to the various branches of their business.
